

# What you can do to help the team at Intelligent Clinical

Our team are looking forward to meeting with you. If you have any concerns about your health or COVID-19 related symptoms and think you may have been exposed to the virus, **stay home and call us as soon as possible on 0141 299 7071.**

We want you to get well and then we can re-schedule to see you when you are feeling better.

Once your appointment has been confirmed keep us posted on any changes to your health **especially if you think you might have any COVID-19 related symptoms.**

On the day before, and on the morning of your appointment you will receive a call from our team where they will run through some health checks before you arrive at your appointment. Take a note of any questions you might have and we can run through them on the call.

If the team have confirmed your appointment will go ahead, **please phone us when you arrive at the premises.** This will allow us to provide you with further instructions before you enter the building.

Intelligent Clinical would like to thank you for your valuable contribution to research and for taking the time to help us keep both you and our team safe.

Throughout your visit please follow the signs and instructions provided. Do your part to follow the guidance, wash your hands, use hand sanitiser, try not to touch your face and keep your distance unless instructed otherwise.

WASH  
YOUR  
HANDS

KEEP  
YOUR  
DISTANCE

AVOID  
TOUCHING  
YOUR FACE

## How we're helping to keep you safe from COVID-19

Our team will always work within Public Health Scotland's guidelines to put your safety first.

1.

We will keep you informed and discuss every stage of your visit before and after each visit.

2.

We will ensure you and our team have all the required PPE to protect you during your visit.

4.

Our spacious waiting area is configured to allow for social distancing and visits are scheduled to maximise space.

6.

We will carry out every visit following social distancing guidance and only ever make contact where necessary and where the use of PPE allows for a safe procedure.

3.

We will provide handwashing and hand sanitiser areas throughout our research facility.

5.

We will clean our clinical rooms before and after each visit to the highest clinical standards.

7.

Our team will do our very best to answer your questions to ensure you are fully informed before you attend your appointment and during your time with us.
